

# Important things for elitmus exam preparation students.

---

By Praveen Jain<sup>[1]</sup> on Sunday, July 7, 2013 at 10:00pm

You can *DOWNLOAD 3real e-Litmus question papers* and some reference books from the files section of this group or the below changed link & use them as reference or mock test for your upcoming e-Litmus test

- [http://www.mediafire.com/download/p9ip4sh42a4b4it/eLitmus\\_papers.rar](http://www.mediafire.com/download/p9ip4sh42a4b4it/eLitmus_papers.rar)<sup>[2]</sup>

Important things must follow by students who want to crack elitmus

1. Paper level is very tough. I think elitmus exam is a mock for CAT students.
2. Don't try to attempt lot of questions.
3. 10 per section in elitmus is ideal attempt to exam.
4. For problem solving section, best scoring part is cryptoarithmic questions. Try as many question as you have. For crypto arithmetic question don't refer any books. Just follow this site

<http://cryptarithms.awardspace.us/primer.html><sup>[3]</sup>

<http://cryptarithmic.wordpress.com/><sup>[4]</sup>

<http://www.alokshrivastav.blogspot.in/search?updated-min=2013-01-01T00:00:00-08:00&updated-max=2014-01-01T00:00:00-08:00&max-results=10><sup>[5]</sup>

If you are cryptoarithmic question are correct then your problem solving section is completed. In DI problem, you can't write all the questions in time. It is highly impossible.

5. For verbal section, best scoring area is 'verb form' type questions. For example download elitmus paper. Now, coming to paragraph questions. Almost 12 questions are there, it is the best scoring area.

6. For quant section, nothing I can tell about quant because it's totally jumbles. They cover almost all topics.

Books to use:

1. TIME material is OK but not preferable. If you are beginner, it is the best book.

2. arun Sharma is the best book. but leave advance level . solve only average level that will be enough for elitmus.

At last, if you attempt 30 questions in a elitmus exam. If 20 were correct then you can make it. Almost 90 percentile above is in your hand.

Last important thing is sectional percentile is important. So, don't attempt 20 questions from one section and 10 from another section.

3.If anyone written twice or thrice. Best one will be consider.

If anyone wants to edit it. Edit it and make it easier for upcoming students .

4. If anyone got any call give reply it either deny or accept but don't leave it because They never call you again for the same company.

Dont post any offtrack post or spam here. You will be immediately banned. Our intention is only to make the students only communicate to each other and share the genuine experiences about Elitmus and job opportunities. We do not want any consultant to participate in group and no body is allowed to do marketing for any company. This is a pure students group.

At last,report me if you find any useless posts.
